PROJECT HELP NOW

Russia's war on Ukraine has horrified the world, and so many of us want to help, but we don't know how. **That changes today.**

Over the past two years, Buffalo Cartridge and Buffalo Trading Company have teamed with international freight-forwarder DT Gruelle to import goods into the U.S.A. As a Christian enterprise, we now see that the Lord paired our two companies for a greater purpose. Through its U.S.A. based non-profit DTCare®, DT Gruelle provides charitable services all over the globe. DTCare® is a registered 501(c)(3) with a gold transparency rating on GuideStar. Learn more at: www.dtcare.org

In this time of incredible need, a coalition is forming to team with DTCare® to send relief directly to the heart of the crisis, **and we need your help.** Buffalo Trading & Buffalo Cartridge invite you to join Project **HELPNOW.**

DTCare

HERE'S HOW TO HELP TODAY. IT'S EASY!

INDIVIDUAL OR FAMILY

- Donate items on the back of this flyer
- Take your items to participating drop locations
- Volunteer for a packing party at your drop location

BUSINESS OR ORGANIZATION

- Contact us to make your building a drop location
- Collect items from the public and your members
- Host packing parties to prepare goods for shipment

WHAT HAPPENS NEXT?

The suffering in Ukraine is real, and it is happening now. The refugee crisis is already spinning out of control, and **we must not hesitate.** Through its international network, DTCare® has already expedited several humanitarian relief shipments of food and medical supplies, but the need is still vast. The primary goal for this next phase is to gather supplies to build Individual First Aid Kits (IFAKs) and personal hygiene kits. Buffalo Cartridge and Buffalo Trading will pay for the freight costs to transport the goods to DT Gruelle in Pennsylvania, and DTCare® will then leverage its international logistics network and expertise to distribute the relief goods directly to refugees in need.

The cost of international shipping is extraordinary, especially during the growing energy crisis. Please also consider a donation to DTCare® to assist with transportation costs for relief goods: www.dtcare.org/donate

JOIN THE EFFORT TODAY YOU CAN MAKE A DIFFERENCE

Rich Kramer, President of City Uniforms and Linen, describes 12 pallets of goods his company donated to the Ukrainian refugee relief project. (Findlay, Ohio)

During Phase 1 of this relief project, we teamed with City Uniforms and Linen to gather 12 pallets of relief supplies including soap, medical gowns, disinfectant wipes, nitrile gloves, winter coats, and more. Within 48 hours we were able to mobilize these goods to the DT Gruelle facility in Pennsylvania. Once there, DTCare® then combined these relief goods with thousands of durable foodstuffs (MREs) and sent desperately-needed relief to refugees in Poland via airfreight. This entire phase - from first concept to packages landing in Europe - was achieved in just seven days. It took **just one week** to transform goodwill into action on the ground. As you can see - this project is designed to **move fast to deliver relief where it is needed most**. Now it is time for Phase 2 - where we will focus on IFAKs and personal hygiene kits. We thank you for considering joining our efforts, and we hope and pray we can work together to send rapid relief during this tragic humanitarian crisis.

ITEMS NEEDED - DONATE AT A DROP LOCATION

INDIVIDUAL FIRST AID KITS (IFAKs)

NOTE: IFAKs must conform **EXACTLY** to the items listed below.

Thank you for understanding the sensitive nature of these kits.

- Quick-clot rolled gauze, 3" x 48"

DROP LOCATIONS & PACKING PARTIES

This project launched quickly due to the urgent need of refugees fleeing Ukraine, but the coalition is already growing rapidly. Our first efforts took root in Ohio and Pennsylvania, but we've already received generous help and commitments from as far as Tennessee and Texas. And the list is growing! **You can choose your level of involvement.** Visit the link above to find a drop location near you, or to setup your business/organization as a drop location. Once you have begun gathering donations, you can either host a packing party at your facility, or we can schedule a truck to pick up your goods to be packaged at one of our other participating locations.

The cost of international shipping is extraordinary, especially during the growing energy crisis. Please also consider a donation to DTCare® to assist with transportation costs for relief goods: www.dtcare.org/donate
